EXPERIENCE

Capgemini — *Software Engineer*

May 2021 - PRESENT

Working with clients to design and develop solutions to their needs using AWS and Java Springboot technologies and support cloud migrations.

University of Illinois at Chicago — *Teaching Assistant*

August 2019 - May 2021

Taught and reinforced machine organization concepts to students through weekly labs and one on one office hours.

University of Illinois at Chicago — *Research Intern*

June 2018 - August 2018

Used Python to access, integrate, and analyze data related to Chicago's urban metabolism to help with data science research on the topic.

EDUCATION

University of Illinois at Chicago — *Bachelor of Science in Computer Science*

August 2017 - May 2021

Awards: Summa Cum Laude

PROJECTS

Library Management System — *Java Spring Boot/AWS*

Worked in a group environment to design, develop, test, and deploy a full stack application for a library management tool. I was responsible for building and maintaining the Java Springboot RESTful API and database to work alongside an Angular frontend all deployed on AWS.

SKILLS

Java Spring Boot

AWS (EC2, S3, RDS, DynamoDB, Lambda, APIGateway, Connect)

Terraform

React

Git

Certifications

AWS Developer Associate

AWS Solutions Architect Associate

Hashicorp Certified: Terraform Associate
